Shared Ownership of Intangible Property Rights The Case

~~October 18th, 2019 Abstract We show that the legal rules regarding the ability of co owners of patents to license the patented technology to third parties have important implications not only for licensing the diffusion of the patented technology and hence downstream competition but also for the decision to share ownership in the first place~~"the sib swiss institute of bioinformatics' resources

january 19th, 2017 - the scientists at the sib swiss institute of bioinformatics contribute to this field with expertise in data management storage integration and analysis thereby addressing the needs of the scientific community in both academia and industry figure figure1 1'
